Objective:

To obtain a software developer role in a company where I can contribute my skills and be mentored towards a successful career.

Skills:

- | | |
|------------|---------------|
| • Java | Quick Learner |
| • DotNet | Focused |
| • Database | Team player |
| • ReactJs | |

Educational Qualification:

- Completed PG-Diploma in DAC at Acts-CDAC, Pune
- Completed B.Tech in Mechanical with **86%** from Dr. Babasaheb Ambedkar Technological University in 2022
- 12th from MH State Board in 2018

Project:

Title : **Electrical Appliance's Maintenance and Servicing System**

Summary : This application allows the users to book servicing for their electrical appliances like for example: air conditioners, refrigerators, televisions, electrical ovens. After giving the necessary information, an appropriate serviceman from that particular area where the user stays should be appointed for servicing. This application is designed to be user friendly, efficient and scalable providing a streamlined experience for both customer and serviceman

Extracurricular Activities:

- Organized cultural events in college
- Participated in Student Excellence & Learning Program in college

Hobbies:

- Chess
